Learn About Career Opportunities in Medicine.

[Apply](#) Now for the July-August Rotation at White Memorial Medical Center, Los Angeles.

Application Deadline: Postmark April 29, 2005

Shortage Area Medical Education & Training Program (SAMET) prepares health professional students for future practice in health professional shortage areas in California.

SAMET Offers:

- Rewards of providing care to medically underserved communities.
- Opportunities to work with health providers dedicated to equitable and accessible healthcare.
- Clinical training in a supportive and real life environment.

Curriculum:

- Four to-six weeks of didactics and clinical training for medical students.
- Choose to work with one of three mentor roles: Public Health Officer, Physician Executive, and Primary Care Physician.

Program Requirements:

- Completed [application](#) form
- A letter from your medical school stating academic standing
- A personal statement containing background information including language and cultural skills and your interest in SAMET.
- Proof of your medical school malpractice policy and coverage limits, immunization records, and health insurance coverage

Summer SAMET Program Coordinators:

- Hector Flores, MD and Jaime Cruz, MD
